AFO

Patient ID: _____ **Side:** Left Right
Order Reference: _____ **Gender:** Male Female
Customer design: **Express:** **Level:** AFO¹ Mid-AFO²
AFO+³ Pediatric AFO⁴

Reliefs/buildups: Malleoli _____ mm Tibia shaft _____ mm

Tendo calcaneus _____ mm

Volume overall: Increase _____ mm

Dorsi flexion: No change Neutral Other _____ degrees

Heel height: 10mm⁵ Other _____ mm

Foot shape: Shoe plate⁶ Toe box⁷ Cut toes⁸

Joint axis: Standard placement⁹ CAD-file markings

Design: No design/padding Lateral ankle/anterior calf – DCO¹¹

Lateral ankle/anterior calf with joint

Lateral ankle/posterior calf with joint

Medial ankle/anterior calf with joint

Medial ankle/posterior calf with joint

Notes:

1. Cut-line: Tuberositas tibia
2. Cut-line: Mid-patella
3. Cut-line: 20cm/7.9" from floor/ground
4. Cut-line: Tuberositas tibia. Max height 35cm/13". Age below
10. Only for pediatric patients
5. Standard heel height
6. Plantar shape similiar to internal shoe sole
7. Toe box/shoe shape is created from MTP and forward.

- Rest of the foot is left as is/foot shaped.
8. Toes are cut/discarded behind MTP
 9. Sagittal plane 50/50. Frontal plane: Average height medial/lateral malleolus
 10. Design is added to the mold for the outline of the orthosis. 2mm distance is created to allow space for padding
 11. Design made for dynamic carbon orthosis without joint
